SUPPLEMENT TO
REPORT NO.

25X1X

1. For a period totalling about 10 days during May and June 1951, informant observed men parachuting from a single-engine plane at the Tirane airfield. Twice a day approximately 10 to 15 men were dropped from the plane.
2. Each trainee had two parachutes of equal size which were side by side (sic). Informant reported that on one occasion a parachutist was killed or seriously injured when only one of his parachutes opened.
